

Strengthening Institutional and Economic Resilience In Yemen (SIERY)

Last Updated: November 2023

PROJECT INFORMATION

SIERY is a five-year project, funded by the European Union. The project aims to strengthen sub-national authorities in Yemen for better service provision and to improve local business environments For local economic development and job creation. The project consists of 2 components: 1- institutional resilience, which caters to improved basic service delivery and considers that the role of local authorities can play in stability, recovery and peace. 2- economic resilience which aims to improve local business environments for economy recovery and employment opportunities.

SNAPSHOT

Aden, Hadramout, Hajjah, Hodeidah, Ibb, Lahj, Marib, Sana'a and Taiz (47 Districts)

EURO 69,800,000

August 2020 – August 2025

SIERY FIVE KEY OUTPUTS

- 1-Strengthened Local Authorities' capacities to respond to community needs for services in an inclusive and accountable manner.
- 2-Improved capacities of public services providers for scaling up the outreach to the most vulnerable.
- 3-Strengthened central-local and horizontal relations between local governance stakeholders.
- 4-Strengthened linkages/cooperation opportunities between MSMEs, private sector and MFIs involved in the value chains.
- 5-Increased and de-risked access to financial services for economic agents in promising value chains.

Funded by the European Union
